4. REVIEW OF OPERATIONS

The revenue from operations for the year ended March 31, 2017 was Rs. 2,502.14 crores as compared to Rs. 2,982.07 crores for the year ended March 31, 2016.

The profit before tax for the year ended March 31, 2017 was Rs. 30.11 crores as compared to Rs. (248.08) crores

for the year ended March 31, 2016. Total Comprehensive Income stood at Rs. 19.52 crores for the year ended March 31, 2017 compared to Rs. (241.70) crores for the previous year. The financial results for the year ended March 31, 2017 were primarily achieved on account of improved operational efficiency and a stable foreign exchange rates despite the unfavourable market conditions due to failure of monsoon. For the year ended March 31, 2016, the Exceptional Item represents outstanding dues of Rs. 16.68 crores from United Breweries (Holdings) Limited provided in view of the uncertainty of recoverability and provision for potential diminution in the value of investment in the preference share capital of Rs. 200 crores in Bangalore Beverages Limited in view of investment having been diverted to non project activities.

5. PRODUCTION

Urea

As in the previous year, your Company achieved full production of the reassessed capacity of 3,79,500 MTs during the current year.

Di-Ammonium Phosphate (DAP) and Complex Fertilizers

Your Company produced 2,62,046 MTs of Phosphatic Fertilizers during the year compared to 2,05,308 MTs in the previous year due to improved availability of raw materials.

Ammonium Bi-carbonate (ABC)

Production of ABC at 13,014 MTs during the year compared to 12,172 MTs in the previous year.

6. SALES

During the year, your Company sold 3,79,400 MTs of Urea compared to 3,80,259 MTs in the previous year. Sales of manufactured Phosphatic Fertilizers were 2,59,792 MTs compared to 2,05,680 in the previous year. Sales of imported fertilizers were 2,91,599 MTs against 3,76,164 MTs in the previous year.

Sulphonated Naphthalene Formaldehyde (SNF)

The plant set up in August 2010 for manufacture of SNF on a modular basis can take care of increased demand. The Company sold 16,051 MTs of SNF during the year, compared to 14,049 MTs in the previous year. The Company has continued with new product variants for applications in newer areas to improve plant utilization, in order to de-risk its focus on construction chemical industry.

Specialty Plant Nutrition (SPN) Products

In order to retain/improve soil productivity and derive increased output from the same area of land, it is necessary to maintain soil health, correct imbalances in the nutrients essential for plant growth and yield, and manage irrigation properly. The country continues to face a serious problem of deterioration in soil productivity due to indiscriminate and imbalanced use of NPK fertilizers, inadequate use of other nutrients essential for plant growth and injudicious use of irrigation water. Disproportionate increase in the farm gate prices of Phosphatics and Potash, compared to that of Urea, has further aggravated this problem. In order to arrest soil deterioration, and improve soil conditions and its productivity, your Company has introduced products that maintain soil health, provide balanced and complete nutrition, and improve crop health.

To address the nutrient deficiencies noticed in the soil resulting in inadequate output or crop failure in the areas serviced by our Marketing network, our R&D unit at Hassan has been developing nutrient mixtures, enriched organic manure products and soil conditioners to mitigate crop specific issues, apart from providing analytical and advisory service to farmers. These products, in addition to alleviating nutrient deficiencies and improving tolerance to crop specific diseases, also lead to better quality and higher productivity. The response from the crop growers on the effectiveness of these products has been very positive and there is a growing demand for development of similar products for other crops. In order to encourage scientific application of fertilizers and plant nutrients, your Company has been trying to introduce these concepts at the grass roots level. To actively focus attention of all concerned on the specifics involved therein, lot of customer education programs were carried out to

popularize usage of SPN products under the concept of Mangala Integrated Nutrient Management (INM).

The Mangala INM concept was introduced in 2002-03 and the basket of SPN products under the concept started evolving ever since. Concentrated and continued effort in identifying customer needs, introducing suitable products and educating farmers as well as channel partners in proper use of these inputs has resulted in the Company achieving a turnover of Rs. 158 Crores during the year. Achievement of this sales turnover under the highly unfavorable agriculture situation in the States that are critical for SPN business such as Karnataka, Tamil Nadu, Kerala and Andhra Pradesh, is commendable.

In order to support marketing requirement with timely supply of quality Plant Nutrition products, the Specialty Fertilizer manufacturing facility set up in 2011 at its factory in Mangaluru with an annual capacity of 12,000 MT of Water Soluble Fertilizers and Micronutrient Mixtures, has greatly helped in growth of water soluble fertilizer and micronutrient segments in your Company, one of the fast growing agri. input segments in India.

Crop Protection Chemical (CPC) Products

As part of diversification and growth strategy, and in order to offer a wider range of agri. inputs, your Company introduced CPC products in July 2010. As an entry plan, a collaborative approach was adopted for marketing the products of reputed pesticide companies through its channel partner network. Subsequently, your Company also started introducing selected molecules in its own brand. During the year under review, your Company marketed 13 products under Mangala brand. The CPC business registered a turnover of Rs. 45 crores. Accomplishment of this sales turnover is commendable as majority of southern states were reeling under drought.

Analytical and Advisory Service

To promote the concept of Mangala INM, R & D facility established at Hassan has the capability to analyze sample substrates of soil, water, plant tissues, plant nutrients, organic manures, soil amendments, fertilizers etc. Through these facilities, analysis of the samples pertaining to our customers is done and appropriate recommendations for soil health management and crop management are given. Suitable follow up is done by our experts and extension workers to ensure effective implementation of the recommendation. All these are provided to our customers free of cost to ensure their active participation in achieving profitability and sustainability in agriculture.

7. WORKING CAPITAL

Continued under-provisioning for fertilizer subsidy in the Union Budget with resultant unusual delay in subsidy payment by Government of India (GOI) contributed to precarious working capital condition and increased working capital costs.

8. RENOVATION/MODERNIZATION OF AMMONIA/UREA PLANTS – NATURAL GAS CONVERSION PROJECT

As mandated by Department of Fertilizers, GOI, the Company has successfully completed gas conversion project of urea operations in June 2014 at a cost around Rs. 315 crores. The plant that is running successfully on naphtha/furnace oil as feedstock/fuel, can seamlessly operate with natural gas without interruption, whenever natural gas is made available. This was confirmed by the study carried out by Projects and Development India Limited (PDIL), a Govt. of India company.

The Company has signed a Gas Supply Agreement with Indian Oil Corporation and a Gas Transmission Agreement with GAIL (India) Limited in February 2011. Though Petronet LNG terminal of Kochi has been commissioned in September 2013, unsatisfactory progress in laying of gas pipeline from Kochi to Mangaluru by GAIL (India) Limited has prevented your Company from receiving gas for Ammonia/Urea production.

9. FERTILIZER POLICY

Stage III of New Pricing Scheme (NPS) for Urea announced in March 2007 stipulated that existing Naphtha/Furnace Oil/LSHS units should convert to gas by March 31, 2010. The deadline was extended until further orders in March 2010 in view of delay in formulation of NPS Stage – IV. In the meantime, the Company had signed a Gas Supply Agreement with Indian Oil Corporation and a Gas Transmission Agreement with GAIL (India) Limited in February 2011. The LNG terminal at Kochi has been commissioned in September 2013.

The Government of India (GOI) by its notification No.12012/3/2010-FPP dated 2nd April 2014 specified that the production of high cost naphtha based units will continue under modified NPS – III till the gas availability and connectivity is provided to these units or June 30, 2014, whichever is earlier, beyond which subsidy for naphtha based units will not be paid, which was further extended until September 30, 2014. Laying of Gas pipeline from Kochi to Mangaluru by GAIL (India) Limited made negligible progress till then.

The Company had approached Hon'ble High Court of Delhi on September 29, 2014 with a prayer to direct the GOI to continue subsidy for Naphtha based plants until gas is made available to the Company. Pending disposal of the matter, the GOI allowed operation of Naphtha based urea plants for 100 days from January 07, 2015. The Urea production was continued after the expiry of said period of 100 days i.e April 16, 2015 based on the orders of the Hon'ble High Court of Delhi dated April 16, 2015 which ordered GOI to continue with the arrangement made as per Notification No. 12012/3/2010-FPP dated January 07, 2015, until GOI makes appropriate policy for subsidy to Naphtha based plants.

The GOI vide its Notification No.12018/4/2014-FPP dated June 17, 2015 allowed continuation of production of urea by 3 Naphtha based units (MFL – Manali, MCFL – Mangaluru

and SPIC – Tuticorin) till these plants get assured supply of gas either by gas pipeline or any other means. Albeit some restrictive conditions were imposed in terms of the subsidy mechanism that reduces the eligible subsidy, which are discriminatory compared to the recently converted naphtha based urea plants. Therefore the Company has approached Hon'ble High Court of Delhi seeking remedy and the matter is pending for final hearing. Moreover, the Company has also appropriately represented before the Govt. of India for suitable remedy.

The Nutrient Based Subsidy Scheme (NBS) was introduced by the GOI with effect from April 1, 2010 after de-controlling the DAP/complex fertilizers, where annual/bi-annual concession rates are announced in advance leaving the market realization to reflect the fluctuations in respective commodity prices. However, the GOI is indirectly regulating market realization against the objective of de-control.

Ammonia Plant Energy Reduction Project

As per the Notification No. 12018/4/2004-FPP dated June 17, 2015, the energy norm is revised downward from present norms with effect from 2018-19. In order to reduce the actual consumption of energy, it is proposed to upgrade Ammonia plant with suitable technology in cost effective manner.

The Company had engaged M/s. Kellogg Brown & Root LLC, USA (KBR) for Technology Licensing and Basic Engineering Development to upgrade Ammonia plant of the Company to attain reduction in the consumption of energy. Basic Engineering is completed in June 2017. Appointment of detailed engineering/EPC contractor and placement of order on long lead items is planned in financial year 2017-18.

Secretarial Audit Report

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

For the Financial Year ended March 31, 2017

To,
The Members,
Mangalore Chemicals & Fertilizers Limited,
Bengaluru-560001

I have conducted the Secretarial Audit of the compliance of the applicable statutory provisions and the adherence to good corporate governance practices by Mangalore Chemicals & Fertilizers Limited (herein after called the Company). Secretarial Audit was conducted in a manner that provided me the reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's Books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, I hereby report that in my opinion the Company has, during the Audit period covering the Financial year ended on 31st March 2017, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and Compliance-mechanism in place and subject to the reporting made hereinafter.

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the Financial Year ended on 31st March 2017, according to the provisions of:

- I. The Companies Act, 2013 (the Act) and the Rules made thereunder;
- II. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the Rules made thereunder;
- III. There were no occasions needing compliance under the provisions of the Depositories Act, 1996 and the Regulations and Bye-laws framed there under; hence not applicable;

AUDITORS' CERTIFICATE ON CORPORATE GOVERNANCE

To the Members of Mangalore Chemicals and Fertilizers Limited,

We have examined the compliance of conditions of Corporate Governance by the Mangalore Chemicals and Fertilizers Limited ("the Company") for the year ended March 31, 2017 as per the relevant Regulations of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as referred to in Regulation 15(2) therein.

The compliance of conditions of Corporate Governance is the responsibility of the Management of the Company. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanation given to us, we certify that the Company has complied in all material respects with the conditions of Corporate Governance as stipulated in the SEBI (Listing Obligation & Disclosure Requirements) Regulations 2015 except Regulation 23(4) of the SEBI (Listing Obligation & Disclosure Requirements) Regulations 2015 which has been reported to the Stock Exchanges by the Company.

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

Management Discussion & Analysis

Industry Structure and Developments

The Company has only one major business segment, viz. Fertilizers. It manufactures both Nitrogenous and Phosphatic fertilizers and is the only manufacturer of fertilizers in the state of Karnataka. About 60% of the Company's products are sold in the state of Karnataka, which meets about 20% of the needs of the farmers in the State. The Company maintains a good share of the market in Kerala and a modest share in the neighbouring states of Tamil Nadu, Andhra Pradesh, Telangana and Maharashtra.

Threats and Opportunities

Stage III of New Pricing Scheme (NPS) for Urea announced in March 2007 stipulated that existing Naphtha/Furnace Oil/LSHS units should convert to gas by March 31, 2010. The deadline was extended until further orders in March 2010 in view of delay in formulation of NPS Stage – IV. In the meantime, the Company had signed a Gas Supply Agreement with Indian Oil Corporation and a Gas Transmission Agreement with GAIL (India) Limited in February 2011. The LNG terminal at Kochi has been commissioned in September 2013.

The Government of India (GOI) by its notification No.12012/3/2010-FPP dated 2nd April 2014 specified that the production of high cost naphtha based units will continue under modified NPS – III till the gas availability and connectivity is provided to these units or June 30, 2014, whichever is earlier, beyond which subsidy for naphtha based units will not be paid, which was further extended until September 30, 2014. Laying of Gas pipeline from Kochi to Mangaluru by GAIL (India) Limited made negligible progress till then.

The Company had approached Hon'ble High Court of Delhi on September 29, 2014 with a prayer to direct the GOI to continue subsidy for Naphtha based plants until gas is made available to the Company. Pending disposal of the matter, the GOI allowed operation of Naphtha based urea plants for 100 days from January 07, 2015. The Urea production was continued after the expiry of said period of 100 days i.e April 16, 2015 based on the orders of the Hon'ble High Court of Delhi dated April 16, 2015 which ordered GOI to continue with the arrangement made as per Notification No. 12012/3/2010-FPP dated January 07, 2015, until GOI makes appropriate policy for subsidy to Naphtha based plants.

The GOI vide its Notification No.12018/4/2014-FPP dated June 17, 2015 allowed continuation of production of urea by 3 Naphtha based units (MFL–Manali, MCFL–Mangaluru and SPIC–Tuticorin) till these plants get assured supply of gas either by gas pipeline or any other means. Albeit some restrictive conditions were imposed in terms of the subsidy mechanism that reduces the eligible subsidy, which are discriminatory compared to the recently converted naphtha based urea plants. Therefore the Company has approached Hon'ble High Court of Delhi seeking remedy and the matter is pending for final hearing. Moreover, the Company has also appropriately represented before the Govt. of India for suitable remedy.

The Nutrient Based Subsidy Scheme (NBS) was introduced by the GOI with effect from April 1, 2010 after de-controlling the DAP/complex fertilizers, where annual /bi-annual concession rates are announced in advance leaving the market realization to reflect the fluctuations in respective commodity prices. However, the GOI is indirectly regulating market realization against the objective of de-control.

As per the Notification No. 12018/4/2004-FPP dated June 17, 2015, the energy norm is revised downward from present norms with effect from 2018-19. In order to reduce the actual consumption of energy, it is proposed to upgrade Ammonia plant with suitable technology in cost effective manner.

The Company had engaged M/s. Kellogg Brown & Root LLC, USA (KBR) for Technology Licensing and Basic Engineering Development to upgrade Ammonia plant of the Company to attain reduction in the consumption of energy. Basic Engineering is completed in June 2017. Appointment of detailed engineering/EPC contractor and placement of order on long lead items is planned in financial year 2017-18.

Unusual delay in subsidy payment by GOI contributed to working capital shortage and increased finance cost.

Future Outlook

The demand for both Nitrogenous & Phosphatic fertilizers in India is increasing steadily and expected to grow at a compounded annual rate of about 2%. With the domestic production almost stagnant and the demand increasing, the supply deficit has to

be met from imports. Based on normal rainfall for 2017-18, the Company has planned to import substantial quantity of fertilizers to meet the growing demand. In addition, the Company has also finalized supply arrangements with certain local manufacturers of fertilizers, to augment total fertilizer availability in our marketing territory through our own marketing channel.

Despite unfavourable market conditions during the year, focus was maintained on Specialty Plant Nutrition business and this segment is poised for growth given the enormous potential. Crop Protection Chemical business which was started during 2010-11 has gathered momentum and has been growing rapidly. The growth momentum is expected to increase going forward.

Financial and Operational Performance

a) Production Performance

Production of 3,79,500 MTs of Urea, 2,62,046 MTs of Complex fertilizers [DAP/NP] and 13,014 MTs of Ammonium Bi-Carbonate was achieved during the year.

b) Operating Results

The revenue from operations for the year ended March 31, 2017 was Rs. 2,502.14 crores as compared to Rs. 2,982.07 crores for the year ended March 31, 2016.

The profit before tax for the year ended March 31, 2017 was Rs. 30.11 crores as compared to Rs. (248.08) crores for the year ended March 31, 2016. Total Comprehensive Income stood at Rs. 19.52 crores for the year ended March 31, 2017 compared to Rs. (241.70) crores for the previous year. The financial results for the year ended March 31, 2017 were primarily achieved on account of improved operational efficiency and a stable foreign exchange rates despite the unfavourable market conditions due to failure of monsoon. For the year ended March 31, 2016, the Exceptional Item represents outstanding dues of Rs. 16.68 crores from United Breweries (Holdings) Limited provided in view of the uncertainty of recoverability and provision for potential diminution in the value of investment in the preference share capital of Rs. 200 crores in Bangalore Beverages Limited in view of investment having been diverted to non project activities.

c) Resource Utilization

The gross fixed assets and capital work-in-progress as at March 31, 2017 were Rs. 1,072.06 crores as compared to Rs. 1,058.96 crores in the previous year.

d) Working Capital

Net working capital excluding cash and bank balances, as on March 31, 2017 was Rs. (134.75) crores.

Risks and Concerns

Due to changes in Fertilizer policy, Urea production may get curtailed. Possible non-availability of raw materials and fertilizers for non-urea fertilizers are matters of concern. Continued under provisioning for fertilizer subsidy in the Union Budget, and resultant unusual delay in subsidy payment by Govt. of India would contribute to precarious working capital position which could impact production and increased finance costs. Considering the Company's plans for higher imports, depreciation of Indian rupee against the US dollar can adversely affect profitability. Increase in operating costs, mainly finance costs on working capital etc. may adversely affect profitability.

Internal Control Systems

Adequate internal control procedures are in place across various functions in the Company, adequately supported with SAP ERP ECC 6.0 and B.O 4.0 business reporting tool leading to total business integration.

In addition, Internal Auditor reviews the internal control measures on an ongoing basis, whose reports are reviewed by the Audit Committee.

Human Resources and Industrial Relations

The Company continues to focus on employee training and development and had organized several technical and other soft skills training programs across levels. The Company constantly reviews/revises its policies and practices to stay aligned with the best in the industry.

The total strength of regular employees at the end of the year was 791 as against 848 in the previous year.

INDEPENDENT AUDITOR'S REPORT

To

THE MEMBERS OF MANGALORE CHEMICALS AND FERTILIZERS LIMITED

Report on the Financial Statements

We have audited the accompanying Ind AS financial statements of **Mangalore Chemicals and Fertilizers Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2017, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "Ind AS financial statements")

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those

Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including the Ind AS, of the financial position of the Company as at March 31, 2017, and its financial performance, Total Comprehensive Income (Comprising Profit and other Comprehensive Income for the period), its cash flows and the changes in equity for the year ended on that date.

Other matter

As explained in note no 39 to the Ind AS Financial Statements, the investments made by the Company in the Preference Shares of Bangalore Beverages Ltd and Advances made to United Breweries Holdings Ltd have been fully provided for in the year 2015-16.

Pursuant to the directions from the Audit Committee, a Forensic Investigation was carried out into the above transactions which indicate that there may be irregularities and elements of mismanagement in the above transactions, in respect of which we are unable to comment on the impact if any on the these financial statements, in the absence of further information in this regard.

INDEPENDENT AUDITOR'S REPORT

Our opinion is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

- A. As required by the Companies (Auditor's Report) Order, 2016, (the Order), issued by the Central Government of India in terms of Sub-section 11 of Section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the said Order.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF MANGALORE CHEMICALS AND FERTILIZERS LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Mangalore Chemicals and Fertilizers Limited** ("the Company") as of March 31, 2017 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the "Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the

Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes. A company's internal financial control over financial reporting includes those policies and procedures that

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the "Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India".

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2017

Corporate Information

The company is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on BSE Limited and National Stock Exchange of India Limited. The registered office of the company is located at Level 11, UB Tower, UB City, 24, Vittal Mallya Road, Bengaluru – 560 001.

The Company is primarily engaged in the business of manufacture, purchase and sale of fertilizers

Information on other related party relationships of the Company is provided in Note 36.

These financial statements were approved for issue in accordance with a resolution of the directors on 18th May 2017.

1. Significant Accounting Policies

i. Basis of preparation of financial statements

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standard) (Amendment) Rules, 2016.

For all periods up to and including the year ended 31 March 2016, the Company prepared its financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP). These financial statements for the year ended 31 March 2017 are the first that the Company has prepared in accordance with Ind AS. Refer to note 40 for information on how the Company adopted Ind AS.

The financial statements have been prepared on an accrual basis and under the historical cost basis, except for the following assets and liabilities which have been measured at fair value:

- Derivative financial instruments,
- Certain financial assets and liabilities (refer accounting policy regarding financial instruments),

The financial statements are presented in INR and all values are rounded to the nearest Lakhs (INR 00,000), except when otherwise indicated

ii. Basis of classification of Current and Non-Current

Assets and Liabilities in the Balance Sheet have been classified as either current or non-current based upon the requirements of Schedule III to the Companies Act, 2013.

An asset has been classified as current if

- a) it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle; or

- b) it is held primarily for the purpose of being traded; or
- c) it is expected to be realized within twelve months after the reporting date; or
- d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets have been classified as non-current.

A liability has been classified as current when

- a) it is expected to be settled in the Company's normal operating cycle; or
- b) it is held primarily for the purpose of being traded; or
- c) it is due to be settled within twelve months after the reporting date; or
- d) the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other liabilities have been classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

An operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents.

iii) Foreign Currency Translation

Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian Rupee (Rs.), which is Company's functional and presentation currency.

Initial recognition

Transactions in foreign currencies are recorded in the functional currency, by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction.

Conversion

Foreign currency monetary items (such as cash, receivables, payables etc.) are translated using the exchange rate prevailing at the reporting date.

Exchange differences

Exchange differences arising on settlement or translation of monetary items are recognized in the statement of profit and loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2017

iv) Derivative financial instruments

Initial recognition and subsequent measurement

The Company uses derivative financial instruments, such as forward currency contracts, to hedge its foreign currency risks. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at the end of each reporting period. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss.

v) Property, plant and equipment [PPE]

On transition to Ind AS i.e. April 01, 2015, the Company has elected to continue with the carrying value of all of its property, plant and equipment (PPE) recognized as at April 01, 2015 measured as per the Indian GAAP and use that carrying value as the deemed cost of the PPE.

PPE are stated at cost, net of accumulated depreciation / amortization and impairment losses, if any. The cost comprises purchase price, freight, duties, taxes, borrowing costs if recognition criteria are met, and other directly attributable costs incurred to bring the asset to its working condition for its intended use.

The cost of an item of property, plant and equipment shall be recognized as an asset if, and only if:

- (a) it is probable that future economic benefits associated with the item will flow to the entity; and
- (b) the cost of the item can be measured reliably.

Subsequent expenditure related to an item of PPE is added to its book value only if it increases the future benefits from the existing PPE beyond its previously assessed standard of performance. Such cost includes the cost of replacing part of the plant and equipment. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives.

Items of stores and spares that meet the definition of PPE are capitalized at cost. Otherwise, such items are classified as inventories.

Gains or losses arising from de-recognition of the assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

vi) Depreciation and Amortization on PPE

Depreciation on PPE is calculated on a straight line basis using the rates arrived at, based on the useful lives

estimated by the management which are equal to the rates specified in Schedule II to the Companies Act, 2013, other than the cases as mentioned in table below where the useful lives are different from those prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. A major portion of the plant and equipment of the Company has been considered as continuous process plant.

Particulars	Useful life estimated by the management (years)
Plant & machinery (non-continuous process plant) & equipment	5 to 20

The residual values, useful lives and methods of depreciation of PPE are reviewed at each financial year end and adjusted prospectively, if appropriate.

vii) Intangible assets

Intangibles represent software. The management of the Company assessed the useful life of software as finite and cost of software is amortized over their estimated useful life on straight line basis.

The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortization method is changed to reflect the changed pattern.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

On transition to Ind AS, the Company has elected to continue with the carrying value of all of intangible assets recognized as at April 01, 2015 measured as per the previous GAAP and use that carrying value as the deemed cost.

viii) Impairment of non-financial assets

Impairment of non-financial assets is reviewed and recognized in the event of changes and circumstances indicating that the carrying amount of an asset is not recoverable. Difference between the carrying amount of a non-financial asset and the recoverable value, if any,

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2017

is recognized as impairment loss in the profit and loss statement in the year of impairment.

ix) Leases

A lease is classified at the inception date as a finance lease or an operating lease.

A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. Finance leases are capitalized, at the commencement of the lease, at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized in finance costs in the statement of profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on the borrowing costs (See note 30A). Contingent rentals are recognized as expenses in the periods in which they are incurred.

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

x) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

Debt Instruments-

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. For the purposes of subsequent measurement, debt instruments are classified in three categories:

- Debt instruments at amortized cost;
- Debt instruments at fair value through other comprehensive income (FVTOCI);
- Debt instruments at fair value through profit or loss (FVTPL).

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows,
and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The financial liabilities include trade and other payables, loans and borrowings including financial guarantee contracts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

Gains or losses on liabilities held for trading are recognized in the profit or loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2017

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

xi) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

xii) Dividend to equity holders of the Company

The Company recognizes a liability to make dividend distributions to equity holders of the Company when the distribution is authorized and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorized when it is approved by the shareholders. A corresponding amount is recognized directly in equity.

xiii) Inventories

Inventories are valued at the lower of Cost and Net Realizable Value.

The Cost is determined as follows:

- Stores and spares, Fuel Oil, Raw Materials and Packing Materials: Moving weighted average method
- Work-in-progress: Material cost on moving weighted average method and appropriate manufacturing overheads based on normal operating capacity.
- Finished goods (manufactured): Material cost on moving weighted average method and appropriate manufacturing overheads based on normal operating capacity including Excise Duty.
- Traded Goods: Moving weighted average method.

The cost of inventories comprise all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Net Realizable Value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

xiv) Borrowing Costs

Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalized to the extent they relate to the period till such assets are ready to be put to use. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are recognized as finance costs in the period in which they are incurred.

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings.

xv) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

Sale of goods

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Revenue from sale of goods, including concession in respect of Urea, DAP, MOP and Complex Fertilizers receivable from the Government of India under the applicable New Pricing Scheme/Nutrient Based Subsidy Policy, is recognized when the significant risk and rewards of ownership of the goods have passed to the customers. The Company collects sales taxes and value added taxes (VAT) on behalf of the government and, therefore, these are not economic benefits flowing to the Company. Hence, they are excluded from revenue. Excise Duty deducted from turnover (gross) is the amount that is included in the amount of turnover (gross) and not the entire amount of liability assessed during the year.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2017

Claims receivable on account of interest from dealers on delayed payments and insurance are accounted for to the extent the Company is reasonably certain of their ultimate collection.

Other interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

Government grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that the grant/subsidy will be received and all attaching conditions will be complied with.

When the grant or subsidy relates to an expenses item, it is recognized as income over the periods necessary to match them on a systematic basis to the costs, which it is intended to compensate.

Where the grant or subsidy relates to an asset, its value is deducted from the gross value of the asset concerned in arriving at the carrying amount of the related asset.

xvi) Retirement and other Employee Benefits

Provident Fund

Provident fund, a defined contribution plan covers the eligible employees. Contribution made to provident fund is charged to statement of profit and loss.

Gratuity

Gratuity, a defined benefit plan, to the employees is covered under the appropriate schemes of the Life Insurance Corporation of India. Liability is charged to statement of profit and loss based on an actuarial valuation [projected unit credit method] carried out at the balance sheet date, by an independent Actuary.

Leave encashment

Leave encashment benefits payable to employees is unfunded, determined and recognized at the balance sheet date in the accounts as per the actuarial valuation.

Superannuation

Superannuation, which is a defined contribution scheme, is administered by Life Insurance Corporation of India. The contributions to the said scheme are charged to statement of profit and loss on an accrual basis.

Expenditure incurred on payment made to employees under Voluntary Retirement Scheme (VRS) is charged to statement of profit and loss in the year of payment.

Re-measurements

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are

recognized in the period in which they occur, directly in other comprehensive income and such re-measurement gain / (loss) are not reclassified to the statement of profit and loss in the subsequent periods. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Past service costs are recognized in statement of profit or loss on the earlier of the date of the plan amendment or curtailment, and the date that the Company recognizes the related restructuring costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset.

xvii) Income Taxes

Tax expense comprises current income tax and deferred tax. Current income tax is measured at the amount expected to be paid to the taxation authorities in accordance with the Income Tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognized in correlation to the underlying transaction either in other comprehensive income [OCI] or directly in equity.

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2017

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity).

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities.

xviii) Earnings per share

Basic earnings per share is calculated by dividing the net profit or Loss for the year attributable to the equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted EPS, net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year, are adjusted for the effects of all dilutive Potential Equity Shares.

xix) Contingent assets and liabilities

A contingent liability is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the enterprise

A contingent asset is a possible asset that arises from past events the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the enterprise.

xx) Provisions

A provision is recognized when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

2. Significant accounting judgments, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, the accompanying disclosures

and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

a) Income Taxes

Deferred tax assets are recognized for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

b) Defined benefit plans

The cost of the defined benefit gratuity plan, post-employment medical benefits and other defined benefit plans and the present value of the obligation of defined benefit plans are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for defined benefit plans, the management considers the interest rates of government bonds.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases are based on the expected future inflation rates. Further details about the defined benefit obligations are given in note 34.

c) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where ever possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. Refer note 37 for further disclosures.

31 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that is derived from its operations. The Company also holds investments. The Company enters into derivative transactions. The Company is exposed to market risk, credit risk and liquidity risk. The Company manages market risk through a treasury department which evaluates and exercises control over the entire process of market risk management. The Board of Directors provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits and derivative financial instruments.

The sensitivity analysis in the following sections relate to the position as at 31 March 2017 and 31 March 2016.

The sensitivity analysis have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt and derivatives and the proportion of financial instruments in foreign currencies are all constant.

The analysis exclude the impact of movements in market variables on the carrying values of gratuity and other post-retirement obligations, provisions, and the non-financial assets.

The sensitivity analysis is prepared on the assumption that the sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 2017 and 31 March 2016.

a. Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Interest Rate Sensitivity

The following TABLE demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows

Particulars	Increase/ Decrease in Basis Points	Effect on Profit Before Tax	
		2016-17	2015-16
INR Borrowings	+50	28.45	58.03
Euro Borrowings	+50	6.22	5.32
INR Borrowings	-50	(28.45)	(58.03)
Euro Borrowings	-50	(6.22)	(5.32)

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment.

b. Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2017

(Rs. in lakhs)

Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including non-designated foreign currency derivatives.

Particulars	Increase/ Decrease in Basis Points	Effect on Profit Before Tax	
		2016-17	2015-16
USD	+5%	737.82	2,088.60
	-5%	(737.82)	(2,088.60)
Euro	+5%	62.32	53.37
	-5%	(62.32)	(53.37)

c. Commodity price risk

The Company's operating activities require the ongoing purchase of naphtha and furnace oil. Naphtha and furnace oil being an international commodity is subject to price fluctuation on account of the change in the crude oil prices, demand supply pattern of naphtha and furnace oil and exchange rate fluctuations. The Company is generally not affected by the price volatility of naphtha and furnace oil as per the extant urea pricing policies.

Credit risk

Credit risk arises from the possibility that the counterparty may not be able to settle their obligations as agreed, under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Trade receivables

The Company extends credit to customers in the normal course of business. The Company considers factors such as credit track record in the market and past dealings for extending credit to customers. The Company monitors the track record of the payments by the customers and the receivables are regularly monitored. The Company evaluates the concentration of risk with respect to trade receivables as low, since the customer base is large and located in several jurisdictions and operate in largely independent markets. The Company has also taken security deposits from its customers, which mitigate the credit risk to some extent.

Concession (Subsidy) receivables

The concession receivable classified under other financial assets is receivable from the Government of India in the form of subsidy. By sovereign nature credit risk is not perceived.

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department under directions by the board of directors of the Company. The Company does not maintain the significant amount of cash and deposits other than those required for its day to day operations.

Liquidity risk

The Company's objective is to maintain optimum levels of liquidity to meet its cash and collateral requirements at all times. The Company relies on a mix of borrowings and excess operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium/ long term expansion needs. The Company monitors rolling forecasts of its liquidity position (comprising the undrawn borrowing facilities) and cash and cash equivalents on the basis of expected cash flows.

32 CAPITAL MANAGEMENT

The Company aim to manage its capital efficiently so as to safeguard its ability to continue as a going concern and to maximise returns to the shareholders.

The capital structure of the company is based on management's judgement of the appropriate balance of key elements in order to meet its strategic and day to day needs. The amount of capital is considered in proportion to risk and manage the capital structure in light of the changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

The Company's policy is to maintain a stable and strong capital structure with a focus on total equity so as to maintain investor, creditors and market confidence and to sustain future development and growth of its business. The Company will take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

39 Exceptional Items

Based on the directions of the Audit Committee, M/s Ernst & Young LLP were engaged to carry out forensic investigation in relation to all the transactions with United Breweries Holdings Ltd [UBHL] and its group companies [UB Group]. M/s Ernst & Young LLP submitted its report stating that investment in Bengaluru Beverages Limited (BBL) by way of subscription to its preference shares and advances made by the Company to UBHL might have involved irregularities and elements of mismanagement.

The Company has provided as an exceptional item the outstanding advances of Rs. 16.68 Crore from UBHL and as an extraordinary item the investment of Rs. 200 Crore in BBL as at March 31, 2016 in the financial statements for the year ended March 31, 2016 in view of the uncertainty of recoverability.

40 First Time Adoption of Ind AS

Note No. - First-time adoption of Ind-AS

These are the Company's first financial statements prepared in accordance with Ind-AS.

The Company has adopted Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs with effect from 1st April 2016, with a transition date of 1st April, 2015. Ind AS 101 - First-time Adoption of Indian Accounting Standards requires that all Ind AS standards and interpretations that are issued and effective for the first Ind AS financial statements which is for the year ended 31st March 2017 for the Company, be applied retrospectively and consistently for all financial years presented. Consequently, in preparing these Ind AS financial statements, the Company has availed certain exemptions complied with the mandatory exceptions provided in Ind AS 101, as explained below. The resulting difference in the carrying values of the assets and liabilities as at the transition date between the Ind AS and Previous GAAP have been recognized directly in equity (retained earnings or another appropriate category of equity).

Set out below are the Ind AS 101 optional exemption availed as applicable in the transition from Previous GAAP to Ind AS.

Deemed cost-Previous GAAP carrying amount (PPE and Intangible) para D7 of IND AS 101

Since there is no change in the functional currency, the Company has elected to continue with the carrying value for all of Property, Plant and Equipment and Intangible Assets, as recognised in its Indian GAAP financial as deemed cost at the transition date.

A.1 Effect of Ind AS adoption for Balance Sheet

Following reconciliations along with explanations for the GAAP adjustments needs to inserted:

- (i) Reconciliation of equity as at 1 April 2015 (date of transition to Ind AS)**
- (ii) Reconciliation of equity as at 31 March 2016**
- (iii) Reconciliation of profit and loss for year ended 31 March 2016**

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2017

Footnotes to the reconciliation of equity as at 1 April 2015 and 31 March 2016 and profit or loss for the year ended 31 March 2016

1. Proposed dividend

Under the previous GAAP, entities are required to make a provision for the proposed dividends, even if they are proposed/declared after the balance sheet date. Under Ind AS, if dividends to holders of equity instruments are proposed or declared after the balance sheet date, the entity should not recognise those dividends as a liability at the balance sheet date.

2. Finance costs

Under the previous GAAP, these transaction costs were charged to the profit and loss as and when incurred. Under Ind AS, transaction costs are included in the initial recognition amount of financial liability and charged to profit or loss using the effective interest method. Hence at the date of transition to Ind AS, the unamortized portion of the transaction costs was adjusted with borrowings and the excess of finance costs amounting to Rs. 16,28.89 lakhs due to effective interest method was recognised against retained earnings. For the year ended on 31 March 2016, increase/ decrease in finance costs was charged in the statement of profit and loss Rs. 8,53.74 lakhs.

3. Marked to market gain/ (loss) on derivatives

The Company has taken foreign currency loans with floating rate/fixed rate of interest towards acquisition of PPE. It has also taken Cross Currency Interest Rate Swap (CCIRS) to hedge the foreign currency risk and the interest rate risk. Under previous GAAP, the foreign currency loan is treated as INR Loan and interest is accrued at fixed rate of interest on INR Loan. The loan is not restated at each balance sheet date. In relation to CCIRs, the difference between forward rate and spot rate at inception of forward exchange contract (i.e. premium) is amortised over the life of the CCIRS. Under Ind AS, foreign currency loan needs to be restated at each balance sheet date and the resulting gain/loss shall be recognised in the income statement. Further, marked to market (MTM) valuation of CCIRS is required at each balance sheet date and the resulting gain/loss shall be recognised in income statement by recognising corresponding Derivative Asset/Liability.

4. Provision for cash discount

Under the previous GAAP, cash discount extended to the dealers for making early payment is charged as an expense under the head "Rebates" and the Company records such discount on actual basis i.e. as and when customer claims the discount by way of credit note. However, under Ind AS, the company should estimate the amount of cash discount using the expected value method.

5. Spares

As per the requirements of Ind-AS items such as spare parts, stand-by equipment and servicing equipment are capitalized when they meet the definition of PPE, i.e., if the company intends to use these during more than a period of 12 months. The company has capitalised such items of spares as fixed asset which are intended to be used for more than 12 months and provided depreciation on the same.

6. Remeasurement of defined benefit obligation recognised in Other Comprehensive Income (OCI)

Both under the previous GAAP and Ind AS, the Company recognised costs related to its post-employment defined benefit plan on an actuarial basis. Under previous GAAP, the entire cost, including actuarial gains and losses, are charged to profit or loss. Under Ind AS, remeasurements [comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets excluding amounts included in net interest on the net defined benefit liability] are recognised in OCI. Due to this, for the year ended 31 March 2016, the employee benefit cost is reduced and remeasurement gains/ losses on defined benefit plans has been recognized in the OCI.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2017

(Rs. in lakhs)

7. Deferred taxes

Previous GAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under previous GAAP. In addition, the various transitional adjustments lead to temporary differences. According to the accounting policies, the Company has to account for such differences. Deferred tax adjustments are recognised in correlation to the underlying transaction either in retained earnings or a separate component of equity. On the date of transition, the Company has recognised incremental deferred tax asset with a corresponding credit to retained earnings, further during the year ending 31 March 2016, there has been a decrease in net profit owing to increase in deferred tax expense. Further income tax pertaining to earlier years recognised for the period ending 31 March 2016 have been adjusted from retained earnings as on 1 April 2015.

Dear Shareholder,

Sub: Dividend

You will be aware that the Board of Directors of the Company, at its meeting held on May 18, 2017, has recommended a dividend of Re.0.50 per equity share of Rs.10/- subject to the approval of the members at the Annual General Meeting scheduled to be held on September 25, 2017.

To avoid loss of dividend warrants in transit and undue delay in respect of receipt of dividend warrants, the Company has provided a facility to the members for remittance of dividend through the National Electronic Clearing Services (NECS). NECS essentially operates on the new and unique bank account number allotted by banks post implementation of Core Banking Solution(CBS) for centralized processing on inward instructions and efficiency in handling bulk transaction. This facility is available at locations identified by Reserve Bank of India from time to time. This is in addition to the existing facility of ECS in other locations.

Members holding shares in electronic mode are requested to intimate all changes pertaining to their bank details to their Depository Participant in order to arrange the dividend payment by NECS or through warrant by printing the bank details, as the case may be.

Members who hold shares in physical form and desirous of availing this facility are requested to use the format below, to furnish the bank details of the first named shareholder and send the same to the Company/ Share Transfer Agent, not later than September 15, 2017 to update the bank details and arrange the dividend payment by NECS or through dividend warrant by printing the bank details, as the case may be.
